

BUSINESS PRESENTATION

ABOUT US

We are a language service provider that helps businesses improve their global impact through carefully localized communications and storytelling, adapting their content to local markets.

Thanks to our expertise and deep knowledge of translation and localization, we assess your specific needs and manage your projects with effective processes, based on key aspects of your industry.

OUR TEAM

With more than 15 years of experience in the industry, we know how to make your message successful in another language by efficiently allocating all the resources needed for your projects, from specialized native linguists to the most relevant technology for a seamless translation and localization process.

Your dedicated project manager will advise as to the most effective process for your purpose and budget and will take care of all the steps, from a simple document translation to complex localization projects.

MISSION & VISION

Our mission is to help companies gain an edge over their competitors through the translation of online and offline materials, at fair prices.

Our vision is to bring together language services and companies looking to expand on the global market. Through our consultative approach, you will easily understand what services you may need and how to make the most of your investment in localization. We aim at creating trusted relationships and making sure that your needs are fully met.

SECURITY & CONFIDENTIALITY

We attach the utmost importance to the confidentiality of your content. All your translation files and documents are handled with maximal care and we do not share files or other information with third parties unless required by law.
